Re: Zappos Class Action Suit

I am requesting the Court to deny approval of the proposed Zappos settlement which is a 10% discount on Zappos products. This proposal would only enrich the company and not make amends for the damage that was done to consumers during the data breach.

I was informed by Zappos that I was a customer in January 2012 and a Settlement Class Member. I do not intend to appear at the Final Approval Hearing.

To repeat the reason for my objection to this proposal, a 10% discount coupon to each customer would only enrich the company and not make amends for the damage that was done to consumers during the data breach.

If possible, I would like to become one of the class representatives.

Thank you
